PROFESSIONAL SUMMARY

Frontend Developer and BCA graduate with hands-on experience building responsive web applications using **HTML, CSS, JavaScript, React.js, and Tailwind CSS**. Built multiple React projects including a developer portfolio, notes application, and e-commerce frontend. Currently learning **Node.js, Express.js, MongoDB, and Linux** to expand into full-stack development. Seeking a **Frontend / React Developer Internship** to gain industry experience and contribute to real-world projects.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js, MongoDB, REST APIs — Currently Learning

Tools: Git, GitHub, VS Code, npm, Chrome DevTools

UI/UX: Figma

Systems: Linux, Command Line — Fundamentals

AI-Assisted Development: ChatGPT, GitHub Copilot, AI-assisted debugging and development

PROJECTS

Developer Portfolio

React.js | JavaScript | Tailwind CSS | Vercel

- Built and deployed a responsive developer portfolio using React.js and Tailwind CSS.
- Developed reusable React components and structured the application for maintainability.
- Implemented responsive layouts and interactive UI for desktop and mobile devices.
- Applied frontend best practices including accessibility, performance awareness, and reusable component design.
- Deployed the production application using Vercel.

Notes App

React.js | JavaScript | Tailwind CSS | Netlify

- Developed a responsive notes application using React.js for creating and managing notes.
- Implemented CRUD functionality using React state management and reusable components.
- Used React Hooks to manage application state and user interactions.
- Organized UI into reusable components to improve code maintainability.

E-Commerce Website

React.js | JavaScript | Tailwind CSS | Netlify

- Built a responsive e-commerce frontend using React.js and Tailwind CSS.
- Developed reusable product, navigation, and UI components.
- Implemented interactive product browsing and frontend user interactions.
- Applied responsive design principles across desktop and mobile layouts.
- Structured the application using component-based React architecture.

EXPERIENCE

Web Development Intern — OctaNet Services

Online Internship | 2 Months

- Completed a two-month practical web development internship.
- Developed and worked on web-based interfaces using HTML, CSS, and JavaScript.
- Applied frontend development concepts to practical assignments and projects.
- Gained experience with development workflows, debugging, and building responsive web interfaces.

EDUCATION

Bachelor of Computer Applications (BCA)

GNIOT — Greater Noida Institute of Technology | Graduated: 2025

CERTIFICATION

React Certificate — GeeksforGeeks

CURRENTLY LEARNING

Node.js | Express.js | MongoDB | REST APIs | MERN Stack | Linux | DevOps Fundamentals
